

ENVIRONMENT MANAGEMENT POLICY

Title	Environment Management Policy
Version Number	2
Effective Date	1 st May 2023
Authorised By	President & Director
Number of Revisions	1
Last Revised Date	1 st April 2014

JK Lakshmi Cement Ltd. recognizes that effective management of environment impacts is a fundamental part of our business. We shall strive to integrate sound environmental practices across our management and governance systems to minimize environmental impacts and attain a leadership position in environmental management.

The Company is committed to:

- Comply with all applicable laws, standards and regulations related to the environment.
- Optimize use of natural resources like limestone, coal, gypsum, water and energy etc.
- Take initiatives towards efficient use of natural resources and energy, reduction & prevention of pollution and promoting waste avoidance & recycling measures in line with internationally disseminated technologies and practices.
- Adopt ecologically sound manufacturing process and mining technologies and develop greenbelt. Develop a rehabilitation program for all limestone quarry sites and shall foster conservation plan for forestry, wildlife, and biodiversity wherever applicable.
- Adopt state of art technology for control and monitoring of emissions, effluents, and wastes. Utilize various wastes derived fuels like biomass etc. and raw materials like fly ash, etc. by co-processing of the wastes.
- Enhance environmental awareness through participation and consultation with employees and contractors by training and effective channels of communications.

- Engage with internal and external stakeholders and wider communities to broaden our understanding of environmental priorities, their links to global issues and initiate actions on key environmental challenges.
- Influence our contractors and suppliers to adopt Company's environmental policies, principles and practices and encourage appropriate environmental management across the supply and value chain.
- Continually improve environmental performance of current and future products, services, and infrastructure.
- Monitor, measure, report the progress, performance of environmental conservation and management initiatives in compliance with recognized protocols and communicate approach and achievements to relevant stakeholders.

This policy shall be reviewed periodically for its suitability and updated as necessary.
