

SUPPORTING AQUA CULTURE FOR BUILDING SUSTAINABLE INCOME

We are proud to share that **JK Lakshmi Cement Ltd. Durg Unit** under its flagship CSR Project – “**JK Lakshmi Aajivika**” is supporting underprivileged and marginalised families who have lost their economic means in the pandemic, in setting up **Aqua Culture Business** for them by providing technical & financial support.

Identified beneficiary families from plant Project intervention areas were provided formal training by Department of Fisheries Chhattisgarh for improving their skills in fish farming and were also given fishing nets & finger size fish (Seed) as additional support. Regular monitoring & handholding is also done so that the business units are sustained.
