

INAUGURATION OF JK LAKSHMI LIBRARY AND SKILL DEVELOPMENT CENTER

We are pleased to inform you that JK Lakshmi Cement Ltd., Jaykaypuram plant under its flagship CSR project JK Lakshmi Aajivika had inaugurated Library cum Skill Development Center with an objective to provide timely and cost-effective information, books, space for group learning & counselling for youth preparing for various projects and examinations. The center has been set up in plant nearby village which is catering youths from nearby areas.

The Center has Wi-Fi facility to enable students to have data connectivity to facilitate online examination, access job related information available over the web, online career guidance & counselling, online coaching & books for competitive examinations.

The local area lacks such facilities for youths due to which they face challenges in accessing timely information & services and that put them in a disadvantageous position vis-à-vis youths in semi urban and urban areas. Our Center will bridge this divide in nearby villages.

Beneficiary Speak - "I had no place to study at home. Lack of libraries and a place to study put students in villages at a great disadvantage. I am happy it is no longer the case in our village."

Libraries can be the key to the social, educational and cultural revival of village.
